

ADEBANJO STEPHEN

Full-Stack Software Engineer · Next.js · TypeScript · AI Products

📍 Lagos, Nigeria - stephenadebanjo86@gmail.com - myportfoliome.vercel.app - github.com/SteeveSticks
linkedin.com/in/stephen-adebanjo-82a6ba359 - x.com/AdebanjoSt63916

PROFILE

Relentless self-taught full-stack engineer with 2+ years of shipping real-world products. Specializes in Next.js, TypeScript, and AI-powered web applications. Founder of StartupFounder — a platform connecting developers with startups, and currently working with Extern on advanced full-stack and machine learning projects. Known for building fast, scaling lean, and writing clean code that users and clients actually love.

WORK EXPERIENCE

Externship — AI & Machine Learning Jan 2025 – Present

Extern · Remote

- Participating in advanced externship program focused on AI/ML applications and full-stack development with real-world client projects.
- Deepening expertise in machine learning concepts, model integration, and production-ready AI features.

Backend Engineer 2025 – Present

ZendSolv · Remote

- Engineered backend systems for a digital solutions firm specializing in web development and end-to-end AI systems.
- Delivered production-grade software solutions for real clients with measurable business impact.

Frontend Developer 2025 – 2026

Bright Sparks Academy · Lagos, Nigeria

- Built and maintained responsive frontend interfaces for an educational platform serving students and instructors.
- Collaborated with cross-functional team to deliver accessible UI components aligned with learning outcomes.

Founder & Lead Developer Jun 2024 – Present

MideCode (StartupFounder Platform) · Lagos, Nigeria

- Built and launched StartupFounder — a platform connecting developers with startup founders — using Next.js 15, Sanity CMS, and Sentry for error tracking.
- Grew platform to 20+ active users within 2 months through organic marketing and community outreach.
- Implemented React 19 and scalable database architecture, improving user engagement by 20%.
- Sole engineer handling design, frontend, backend, DevOps, and product roadmap end-to-end.

Freelance Full-Stack Developer Jan 2023 – Present

Self-Employed · Remote

- Delivered 3+ full-stack client websites across e-commerce and personal branding niches using Next.js, Sanity, and TailwindCSS.
- Integrated Firebase authentication and Stripe payments for secure, seamless user transactions.
- Reduced mobile load times by 25% through accessible, responsive UI design with TailwindCSS v4.
- Maintained 100% client satisfaction across all delivered projects.

SELECTED PROJECTS

ZendSolv — Company Website · <https://www.zendsolv.com>

Next.js · TailwindCSS · TypeScript

- Implemented a production-grade website for a digital solutions firm specializing in web development and AI systems.
- Delivered measurable business impact for real clients through clean UI and performant architecture.

Jude Solar — Business Platform · <https://www.judesolar.com>

Next.js · TailwindCSS · Sanity CMS

- Built premium solar solutions platform for homes and businesses, showcasing installations designed to reduce electricity costs by up to 80%.
- Optimized for SEO with structured metadata, sitemap, and fast-loading responsive design.

Halamd — AI Mood Stylist · <https://halamdcom.vercel.app/>

Next.js · TypeScript · AI/ML · Machine Learning

- Built an AI-powered personal fashion assistant that curates outfit recommendations based on mood, style preferences, and occasion.
- Integrated advanced AI and machine learning to analyze emotional state and suggest confidence-boosting clothing combinations.

Silent Alarm App

React Native · Firebase · Stripe

- Panic alarm app with silent alert capabilities, SMS notifications, GPS tracking, and Stripe monetization.

HydraMind — AI Hydration Tracker (Hackathon)

React · better-auth · Google OAuth

- AI-powered hydration tracker built at hackathon; owned frontend and authentication (Google login, better-auth).

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	React.js, Next.js 14/15, React Native, TailwindCSS v4, SCSS, Bootstrap
Backend	Node.js, REST APIs, Sanity CMS, MongoDB, Firebase
